

Safeguarding/Wellbeing Curriculum Map – The Centre School

Whole School Approach

The Centre School prioritises developing engagement, resilience, and relationships throughout the curriculum.

Online safety - Acceptable Use policy for students/what is expected, sent to parent/carers of new students, and discussed at parent visit. Students are familiarised with this document by House Team staff.

Termly House Days – Themed to address personal development and wellbeing.

House Team lessons address personal development and wellbeing, e.g., resilience, self-identity, British values, dealing with conflict.

Use of emotionally available adults to support, challenge and encourage reflection with students relating to safeguarding, online safety and wellbeing issues.

Targeted 1-1 work with students when issues have been identified.

Music therapist available to work with students onsite.

Two staff fully trained as Trauma Informed School's Practitioners

Staff team trained to basic level in Trauma Informed Practice.

Sensory room available for students to access support with sensory needs and help to self-regulate.

Annual student survey to capture students views on The Centre School, which includes safeguarding.

Student Voice meetings to gather students' views and act on concerns and ideas.

Website, social media and email communications with parents/carers around safeguarding issues and other useful information. Signposting and information shared with parent/carers when particular issues identified.

Weekly PSHE for all students, see PSHE curriculum. Flexibility within PSHE curriculum to address current issues as they arise.
